The Adventures of MAJOR HAVOC™

You ere MAJOR HAVOC, leader of a brave band of clones. All from one, one from all, fighting for humanity

Eons ago the evil Vaxxian Empire overran the galaxy. Most of your encestors were enslaved and taken to the Vaxxian homeworld. Only a few scientists escaped.

Today, the Empire has all but decayed Yet, Vaxxien space stations, controlled end defended by robots, still patrol the galaxy

The small band of scientists cloned you, MAJOR HAVOC, to fly your Catastrofighter through a wormhole in space, to lead your clone army against the dreaded Vaxxien robots, and to free your people by destroying the enemy reactor

GAME FEATURES

New High Tech Cabinet delivers high visibility and increased player attraction

New Backlit Roller Control provides left-to-right directional movement.

Dual Game Play combines space adventure action with maze adventure action to give incredible depth and high-skill challenges

Progressive Nature of Game develops through e series of four scenes in each level·

1 Tactical Scanner displays impending obstacles and intercepted messages
2. Space Wave situates player in a ship firing at robots who defend enemy space station
3. Landing of ship on the space station
4. Interior of space station displays a maze through which player maneuvers MAJOR HAVOC toward enemy reactor

Game within a Game occurs in the lower right corner of the tactical scanner Breakout® cen be played for a few seconds before the actuel game pley starts. A bonus life can be earned

Dual Jump/Fire Button allows player to jump MAJOR HAVOC in the maze sequence and fire at enemy robots in the space wave

Shield Button gives pleyer one shield per life while in the maze

Game Play Timer gives player a limited amount of oxygen in the maze sequence as a pacing feature Player can pick up oxygen pods to replenish his supply. Once the reactor is set off, a countdown is also activated to limit escape time

Secret Warp Code rewards player for short game times as it advances him to levels deep into game pley Roller Controller is used to dial in secret code numbers during the tactical scanner wave.

Add-A-Coin Feature allows player to start a new game at the level where he last saw the tactical scanner in the previous game
